# Youth Services Presents Presenting High-Quality Early Literacy Programs using the Mother Goose on the Loose® Method

**Tuesday, April 29th,  
9:30am-4pm**

**An All-Day Workshop with  
Dr. Betsy Diamant-Cohen for  
Teachers, Daycare  
Providers, Librarians, and  
Caregivers**

Workshop attendees will discuss ways in which children's healthy development is strengthened through purposeful utilization of music, movement, language, art, repetition, ritual, and play to create an optimal learning environment.

By the end of the workshop, participants will have learned about best practices in programming by hearing about them, seeing them in action, experiencing them as a participant, planning programs with best practices in mind, and presenting part of a program to the group. All participants should leave with the workshop with the knowledge, necessary tools, and motivation for implementing these types of high-quality early literacy programs in their communities.

*"Mother Goose on the Loose is perfection. It should be a benchmark/touchstone...the practical advice you gave based on experience was priceless."*

*- Margaret Wells, Librarian, Orlando FL*
