

MADONNA UNIVERSITY  
CENTER FOR HUMANE STUDIES PRESENTS

# GLOBAL CLIMATE DISRUPTION

How Do We Know?  
What Can We Do?

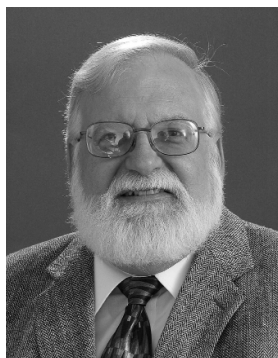

**THURSDAY, MAR. 26  
7 - 8:30 PM**

**Franciscan Center  
Room S100  
Madonna University**

**FREE AND OPEN TO  
THE PUBLIC**

Climate change is a very intense topic which finds its way into political, business and social conversations, often with vocal disagreement among participants. This presentation will give background information about climate change and consider solutions to the problem. The impact of humans on climate and our role in reducing negative consequences will be emphasized. Participants will be able to share their views using personal response devices and to compare their replies to those of more than 5,000 members of previous audiences.

**Dr. Andy Jorgensen**

Associate Professor Emeritus of Chemistry, University of Toledo  
Senior Fellow, National Council for Science and the Environment  
[andy.jorgensen@utoledo.edu](mailto:andy.jorgensen@utoledo.edu)

Dr. Jorgensen taught chemistry classes at the university level for over 40 years with most of that time at the University of Toledo until his retirement in 2017. His specialties are environmental chemistry and chemical education. While at UT he received a University of Toledo Outstanding Teaching Award and was twice appointed as a Master Teacher in the College of Arts and Sciences. He was also awarded an Edith Rathbun Outreach and Engagement Excellence Award for his work in the community. He has served as a Senior Fellow at the National Council for Science and the Environment.
