CSLP Annual Survey 2020

The Collaborative Summer Library Program (CSLP) is a consortium of states working together to provide high-quality summer reading program materials for children, teens, and adults at the lowest cost possible for their public libraries.

For the purposes of this survey, we use the phrase "summer library program" in equivalence to summer reading program or summer learning program.

The audience for this survey is public library staff who administered the 2020 summer library program. The survey takes into account the global health crisis in regard to 2020 summer library program adaptations.
