Pro GoH JODY LYNN NYE
Art GoH WILLIAM WARDROP

***Jody Lynn Nye** has penned collaborations and references for or with Anne McCaffrey, Robert Asprin, Piers Anthony as well as her own *Dreamland* and *View from the Imperium* series, and literally dozens of novels, references and short stories, beginning with *Encyclopedia of Xanth* in 1987 and most recently with fellow Baen author Travis Taylor in the *Moonbeam* series of SF novels.

* **William Wardrop** is a long time Metro Detroit area artist, specializing in sculptures of vehicles; both historical and fantastical, with a side of excellent whimsy. He has shown his work at the both the Southern Museum of Civil War and Locomotive History and a 2-year exhibit at the Atlanta Airport, plus more conventions than can be counted. He works in mixed media, primarily over a cardboard base.

We are building a unique series of activity tracks in honor of our fan families and unforgettable members of past October conventions who we've lost in the past few years, and celebrating a new generation of speculative, SF, Fantasy and Media-Tied literature fans. Please be a part and register today.

Ask about: Film Tech, Else Track, The D20 Fannish Family Awards, DET*OX activities, Outreach and all manner of panels serving literacy, critical thought, diversity, inclusion and most of all: positive culture among our membership.
