

SHE'S GONE MISSING

MISSING AND MURDERED INDIGENOUS WOMEN

There is an epidemic that no one is talking about outside of Indian Country. Within our community we are dealing with an epidemic of Missing and Murdered Indigenous Women. With numbers so high that they are unreported, how do we deal with it all? Why aren't there concrete statistics? Why do the crimes go unreported? What has the FBI done to help with this epidemic? Presented by historian and activist Heather Bruegl.
